

# Our Native Garden Nursery NEWS

## November 2016

Matt LEFT and Kerry Right are checking our seed supplies and equipment in preparation for the upcoming seed collecting season. We have an extraordinary collection of tubs, buckets and sieves for drying and cleaning the seed we collect. Thanks to Landcare Project funding this year, we will have a set of new very lovely and efficient sieves and a modified bakers rack trolley for drying seed. These will make our seed processing much quicker and take up less room in our container.

**Seeds on YOUR land?** Our Native Garden Nursery has a permit to collect seed on some public land. We also are appealing to YOU if you have native plants on your land – can you collect some seed for us and we will donate plants of your choice for planting on your land or to a project of your choice?

We are keen to have seed of all sorts of daisies, grasses, lilies, wattles, Bursaria, peas, Burgan. We can send you great info on when and how to collect seeds of all sorts – send us an email.

**Our Native Garden Nursery Inc.** We have made progress on swapping our organisation over from being a company structure to Our Native Garden Nursery Inc. The new organisation allows us to have more than 50 members and in time we could be able to accept donations that can be a tax deduction for the donor. ONG Nursery Inc now has an Australian Business Number and a Tax File Number. Next is a bank account. We should be through the swap over process at the end of this financial year.

**YAY for Landcare Funding.** We have been approved for Maintenance funding from NECMA Landcare for \$500 not including GST for insurance and towards the cost of the mobilephone.

Volunteers – it's fun and good company – there is a spot for *you*. Would you be our
